

Trypsin Neutralization Solution

Catalog #: NS002

Size: 500 ml

Storage: Store the medium at 2-8°C for up to one month, or -20°C for long term

GENERAL INFORMATION

Improve your cell culture processes with our Trypsin Neutralization solution. This sterile solution contains 0.5% trypsin inhibitor. With a stable pH of 7.4 (+/- 0.1) at room temperature, TN offers a reliable way to neutralize the effects of Trypsin/EDTA solution after releasing cells. For optimal results, refer to the product information sheet for each cell type.

Product is for Research use only. Our products are not authorized for human use, in vitro diagnostic procedures, or for therapeutic procedures.

Storage Condition: Store Trypsin Neutralization solution at -20°C upon receipt, and even upon partial or complete thawing, it can be safely stored at 4°C for up to one month. For extended storage, use a non-self-defrosting -20°C freezer where the product will remain stable until the labeled expiration date.
