### Application Notes

#### Immunohistochemistry

For immunohistochemistry, the antibody will detect Desert Hedgehog C-terminal peptide in cells or tissues. The working dilution is 15 µg.mL.

#### Western Blot

For Western blot analysis, the antibody can be used at 0.1 - 0.2 µg/mL with the appropriate secondary reagents to detect recombinant mouse desert hedgehog C-terminal peptide. The detection limit for recombinant mouse desert hedgehog C-terminal peptide is approximately 20 ng/lane under non-reducing and reducing conditions. In this format, this antibody shows less than 1% cross-reactivity with recombinant mouse desert hedgehog N-terminal peptide (aa 23 - 198), recombinant mouse sonic hedgehog C-terminal peptide (aa 199 - 437).
