## **Data Sheet**

# pASG-IBA143

Cat. No.: 5-4143-001

Version: 3.0

Revision Date: 26.07.2021

Description	StarGate Acceptor Vector for bacterial expression. The expression cassette is under transcriptional control of the tetracycline promoter/operator. The expressed recombinant protein will be localized in the cytoplasm.		
Affinity tag	Twin-Strep-tag® is fused to the C-terminus and 6xHis-tag is fused to the N-terminus of the recombinant protein.		
Cloning Strategy	Cloning into StarGate Acceptor Vectors has to be done with the restriction enzyme Esp3I. There is no Multiple Cloning Site (MCS) available that can be used for the integration of the gene of interest instead (see manual).		
Expression strain	Any E. coli strain. The tet-promoter works independently from the genetic background of E. coli.		
Bacterial Expression	Expression is induced upon addition of 200 $\mu g$ anhydrotetracycline per 1 liter <i>E. coli</i> shaking culture (A <sub>550</sub> = 0.5).		
Resistance	Ampicillin		
Form	5 μg, dissolved in 20 μl TE buffer, pH 8.0: 10 mM Tris/HCl, 1 mM EDTA		
Concentration	250 ng/μl		
Stability	12 months after shipping		
Storage	recommended: 2-8 °C for frequent usage, -20 °C for long-term storage		
Shipping	room temperature		
Hazards	Product is not classified as hazardous according to (EC) No 1272/2008 [CLP].  A Material Safety Data Sheet is provided.		

#### For research use only

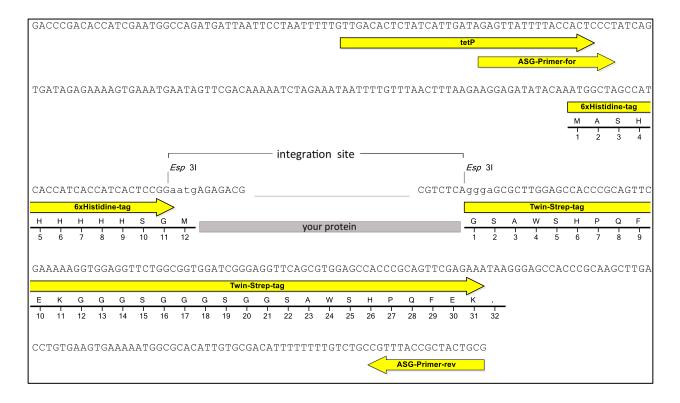

#### Trademark information

The owners of trademarks marked by """ or "TM" are identified at <a href="http://www.iba-lifesciences.com/patents.html">http://www.iba-lifesciences.com/patents.html</a>. Registered names, trademarks, etc. used in this document, even when not specifically marked as such, are not to be considered unprotected by law.

#### Important licensing information

This product is covered by intellectual property (IP) rights and on completion of the sale IBA Lifesciences grants respective Limited Use Label Licenses to purchaser. IP rights and Limited Use Label Licenses for said technology are further described and identified at <a href="http://www.iba-lifesciences.com/patents.html">http://www.iba-lifesciences.com/patents.html</a> or upon inquiry at <a href="mailto:info@iba-lifesciences.com">info@iba-lifesciences.com</a> or at IBA Lifesciences GmbH, Rudolf-Wissell-Str. 28, 37079 Goettingen, Germany. By use of this product the purchaser accepts the terms and conditions of all applicable Limited Use Label Licenses.

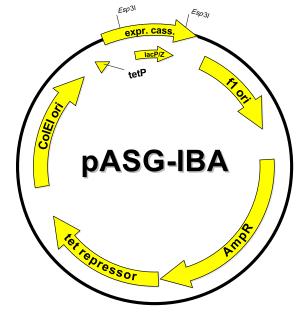

### **Expression cassette of pASG-IBA143**

LacP/Z cassette = contains LacZ alpha fragment under control of a separate promoter, which allows alpha complementation of *LacZ* mutations such as *LacZΔM15* as in *E. coli* DH5α or TOP10.
