

Data Sheet

MHC I-Strep H-2 K^b

Ovalbumin

SIINFEKL

Cat. No.: 6-7015-001
Lot No.: 7015-

Version: 13.1
Revision Date: 09.03.2020

Description	<p>Recombinant murine MHC I-Strep H-2 K^b for Streptamer[®] technology. Refolded with Ovalbumin peptide (SIINFEKL).</p> <ul style="list-style-type: none"> • Fluorescent Streptamer[®] reagents for T cell staining and isolation via FACS: The Strep-tagged MHC I molecules can be multimerized by Strep-Tactin[®] PE (R-Phycoerythrin; # 6-5000-001) or Strep-Tactin[®] APC (Allophycocyanin; #. 6-5010-001) via the reversible interaction between Strep-tag[®] and Strep-Tactin[®]. The resulting fluorescent Streptamer[®] reagents can be used to stain T cells which are specific for the respective peptide-loaded MHC I molecule. • Streptamer[®] Magnetic T cell Labelling and Isolation via StrepMan: The MHC molecules with Strep-tag[®] can be combined with Strep-Tactin[®] Magnetic Microbeads (Cat. No. 6-5510-005) to be used for the isolation of T cells on a StrepMan Magnet (Cat. No. 6-5650-065). <p>After the cells have been sorted by FACS or isolated using Magnetic Beads the dye complex or magnetic microspheres can be mildly and rapidly dissociated from the T cells by using biotin (# 6-0219-001, also included in the Streptamer[®] Solution Set Standard, # 6-5603-005) leading to improved viability of the cells after isolation.</p>
Form	Dissolved in DPBS (Dulbecco's phosphate buffered saline) without Ca & Mg, contains KCl; pH7.9 - 8.1 Solution is sterile and does not contain any preservatives. Please handle under sterile conditions.
Amount	40 µl for fluorescent staining of 5x 10 ⁷ to 1x10 ⁸ cells for magnetic isolation out of 1x 10 ⁸ cells
Stability	12 months after shipping (if stored at -80 °C)
Storage	Long-term storage: -80 °C (avoid repeated freezing and thawing) Short-term storage: make aliquots and store at 2-8 °C
Shipping	dry ice
Hazards	Product is not classified as hazardous according to (EC) No 1272/2008 [CLP]. A Material Safety Data Sheet is provided.

For research use only

Important licensing information

This product is based on Twin-Strep-tag[®] and Streptamer[®] technologies covered by intellectual property (IP) rights and on completion of the sale IBA grants respective Limited Use Label Licenses to purchaser. IP rights and Limited Use Label Licenses for said technology are further described and identified at <http://www.iba-lifesciences.com/patents.html> or upon inquiry at info@iba-lifesciences.com or at IBA GmbH, Rudolf-Wissell-Str. 28, 37079 Goettingen, Germany. By use of this product the purchaser accepts the terms and conditions of all applicable Limited Use Label Licenses.
