

Safety Data Sheet

according to regulation (EC) No 1907/2006

Product name: Biotin stock solution
Version: 2.7
Revision date: 15.02.2022

1 Identification of the substance/mixture and of the company/undertaking

1.1 Product identifiers

Product Name: Biotin stock solution

Product Number: 6-6325-xxx; 6-6996-xxx

Part of kits: 6-6325-xxx is part of Fab-TACS® Agarose Column Starter Kits (human)
6-3201-002, 6-3202-002, 6-3203-002,
6-3207-002, 6-3213-002, 6-3216-002
Fab-TACS® Magnetic Microbead Starter Kits (human)
6-8000-105, 6-8000-110, 6-8000-111,
6-8000-112, 6-8000-113, 6-8000-114,
6-8000-115, 6-8000-116, 6-8000-117,
6-8000-121
CD3/CD28 Streptamer® Kit (human)
6-8900-050
CD3/CD28 Streptamer® Kit (mouse)
6-8920-050

6-6996-xxx is part of Fab-TACS®/Nano-TACS® Agarose Column Starter Kits (mouse):
6-3301-002, 6-3304-002, 6-3305-002,
6-3307-002
Fab-TACS® Exosome Agarose Column Starter Kit (human)
6-3319-002, 6-3381-002
Fab-TACS® Magnetic Microbead Starter Kit (human)
6-8000-101, 6-8000-103, 6-8000-104,
6-8000-106, 6-8000-107, 6-8000-108,
6-8000-109

Registration Number:

A registration number is not available for this substance as the substance or its use are exempted from registration according to Article 2 REACH Regulation (EC) No 1907/2006, the annual tonnage does not require a registration or the registration is envisaged for a later registration deadline.

1.2 Relevant identified uses of the substance or mixture

laboratory chemical

and uses advised against:

No relevant information available.

1.3 Details of the supplier of the safety data sheet

Supplier: IBA Lifesciences GmbH
Rudolf-Wissell-Str. 28
37079 Göttingen
Germany

Telephone: +49-551-50672- 0

E-mail: info@iba-lifesciences.com

1.4 Emergency Telephone Number

Emergency Phone: +49 (0)551/ 19240 (Poison Information Center Göttingen)

2 Hazards Identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP] not hazardous

2.2 Label elements

Labeling according to Regulation (EC) No 1272/2008 [CLP] n/a

2.3 Other hazards

All chemicals are potentially dangerous. They should only be handled by specially trained personnel.

3 Composition/Information on ingredients

3.2 Chemical characterization: Mixtures

Hazardous components according to Regulation (EC) No 1272/2008 [CLP]:

No component of this mixture is classified as hazardous according to Regulation (EC) No 1272/2008.

4 First aid measures

4.1 Description of first aid measures

After inhalation: Provide fresh air. If feeling unwell, consult a physician.

After skin contact: Wash with plenty of soap and water. If skin irritation occurs, consult a physician.

After eye contact: Flush eyes with water for at least 10 minutes. If irritation persists, consult a physician.

After ingestion: Rinse mouth and drink water if conscious. If feeling unwell, consult a physician.

4.2 Most important symptoms and effects, both acute and delayed

No relevant information available.

4.3 Indications of any immediate medical attention and special treatment needed

No relevant information available.

5 Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

CO₂, dry extinguishing powder, foam, or water spray.

Unsuitable extinguishing media

No relevant information available.

5.2 Special hazards arising from the substance or mixture

No relevant information available.

5.3 Advice for firefighters

Wear self contained breathing apparatus for fire fighting if necessary .

6 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Avoid eye and skin contact.

6.2 Environmental precautions

Do not let product enter drains.

6.3 Methods and material for containment and cleaning up

Dilute spill with water and absorb it.

Place in appropriate containers for disposal.

6.4 Reference to other sections

Information about safe handling: see section 7.

Information about protective equipment: see section 8.

Information for disposal: see section 13.

7 Handling and storage

7.1 Precautions for safe handling

Provide appropriate exhaust ventilation at places where dust is formed.

Keep containers, equipment, and workplace clean.

7.2 Conditions for safe storage, including any incompatibilities

Storage rooms and containers: No special requirements.

Incompatible substances or mixtures: Keep away from food and drink.

Consideration of other advice: Keep containers tightly closed.

Recommended storage temperature: -25 – -15 °C

7.3 Specific end use(s)

No relevant information available.

8 Exposure controls/personal protection

8.1 Control parameters

Components with workplace control parameters: none

8.2 Exposure controls

General precautionary and hygiene measures

The usual precautions for handling chemicals should be observed.

Avoid contact with eyes and skin.

Wash hands before breaks and after work.

Respiratory protection

Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Hand protection

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374.

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

Inspect gloves prior to each use. Choose suitable gloves according to break through time, permeation rate and material degradation.

Glove material

Nitrile rubber, minimum layer thickness: ≥ 0,11 mm

The suitability of gloves depends on several quality characteristics besides the material. It may differ from one supplier to another.

Break through time

Break through level: Level ≥ 6

The exact break through time should be inquired from the supplier and should be observed.

Eye protection

Use safety goggles with side protection.

Body protection

Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific workplace. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

9 Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance:	colorless liquid
Odor:	odorless
Odor threshold:	no data available
pH:	7.3 – 7.5
Melting point:	no data available
Freezing point:	no data available
Initial boiling point and boiling range:	no data available
Flash point:	no data available
Evaporation rate:	no data available
Upper/lower explosive limits:	no data available
Vapor pressure:	no data available
Vapor density:	no data available
Relative density:	no data available
Water solubility:	fully miscible
Partition coefficient (n-octanol/water):	no data available
Viscosity:	no data available
Explosive properties:	not explosive
Oxidizing properties:	not oxidizing

9.2 Other safety information

No further relevant information available.

10 Stability and reactivity

10.1 Reactivity

See section 10.3

10.2 Chemical stability

Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions

No relevant information available.

10.4 Conditions to avoid

No relevant information available.

10.5 Incompatible materials

No relevant information available.

10.6 Hazardous decomposition products

No relevant information available.

11 Toxicological information

11.1 Information on toxicological effects

Acute toxicity

No component is classified as acute toxic.

Skin corrosion/irritation

No component is classified as classified as irritant.

Serious eye damage/eye irritation

No component is classified as classified as irritant.

Respiratory or skin sensitization.

No component is classified as classified as a respiratory or skin sensitizer.

Germ cell mutagenicity

No component is classified as a mutagenic toxicant.

Carcinogenicity

No component is classified as a carcinogenic toxicant.

Reproductive toxicity

No component is classified as a reproductive toxicant.

Specific target organ toxicity – single exposure

No component is classified as a specific target organ toxicant (single exposure).

Specific target organ toxicity – repeated exposure

No component is classified as a specific target organ toxicant (repeated exposure).

Aspiration hazard

No component is classified as an aspiration hazard.

12 Ecological information

12.1 Toxicity

No relevant information available.

12.2 Persistence and degradability

No relevant information available.

12.3 Bioaccumulative potential

No relevant information available.

17 Changes to Version 2.1 (from 12.06.2017)

The list of kits containing this product was updated.

Changes to Version 2.2 (from 21.01.2020)

The list of kits containing this product was updated.

Changes to Version 2.3 (from 09.06.2020)

The list of kits containing this product was updated.

Changes to Version 2.4 (from 13.01.2021)

The list of kits containing this product was updated.

Changes to Version 2.5 (from 29.03.2021)

The list of kits containing this product was updated.

Changes to Version 2.6 (from 13.07.2021)

The list of kits containing this product was updated.

Changes to Version 2.7 (from 15.02.2022)

The list of kits containing this product was updated.
